## Legacy of Excellence

---

Starting as Small time miners in the year 1985 to becoming large-scale organized natural exporters, we have come a long way with infinite milestones yet to accomplish. Umang Stone International has consistently, round the clock, looked upon enhancing the processing techniques, embracing the uniqueness of the stone, and most notably, building the quality product. It's the uniqueness and hearty warmth of the natural stone that makes us, adding the new variety and diversify our stone collection. So that we can offer something antique yet simple to the world. At the movement, we bless with eight natural stone quarries of Sandstone & Granite, a state-of-the-art manufacturing unit, spread over an area of **4,00,000 sqft**, and a combined experience of over 100 years.

Currently, USI is exporting its product line to the most demanding markets and discerning clientele across the world, to the countries such as United States, Canada, UK, Germany, Italy, France, NZ, S Korea, Australia, Muscat, Singapore, Dubai.

We have a notion that stone brings soul to a décor. Following this, we are always in awe of admiring the beauty of a natural stone- its veins, tones, swirls... It's just simply the wonder of Mother Nature.

# Why Us?

सत्यमेव जयते

A Government of India  
Recognised Export House

# USi
